Course: Intermediate Weight Training ACT 110-04  
Location: Fitness and Rec Center  
Days and class time: 10:10-11:00  
Instructor: David Paul  
Email: dmpaul84@gmail.com

Overview: This intermediate weight training course will focus on weight training skill acquisition and improvement. Students will have the opportunity to learn and practice new skills in a supportive environment, while being to work to reach their personal fitness goals.

Objectives: 1. Improved physical skills in regards to strength training.  
2. Improved knowledge of strength training movements and safety.  
3. Students improve physical fitness levels. Muscle tone, strength or muscular endurance

If there is anything that you would like covered or discussed, feel free to talk to me anytime.

Requirements (attire, equipment, etc.):

Griz Card: All students must have their Griz Card every day to enter the FRC. Any student denied access to the FRC for any reason will be marked absent for the day.

Attire: Students must attend the class with proper clothing and foot wear. This includes footwear, no open toed or non-athletic shoes. Any student unable to participate due to inappropriate attire will be marked absent for the day.

Equipment: Various workout equipment will be provided for each student

Grading/Attendance: All students are allowed 6 hours of absences during the semester without jeopardizing their credit. All absences count as such, even if for documented medical illness/injury, family emergency, sleeping in, missing class to study for a test, University of Montana sponsored events, personal days not recognized by UM, or staying out too late the night before. In other words, WE DO NOT EXCUSE ABSENCES FOR ANY REASON. It is strongly recommended that students plan ahead and save their 6 hours of allowed absences for minor illnesses or other unexpected events that may occur during the semester. Missing 7 or more hours will result in a grade of “NCR” (No-Credit). Due to the large number of ACTivity Classes and limited facility availability we do not offer make-up classes or other alternatives to making up for missed hours (papers, reports, etc.).

Punctual attendance and appropriate attire is required of all students. Students are required to be dressed out and ready to participate at the beginning of class, and participate for the duration of the class. Any student that is unable to participate for the duration of the class due to late arrival, early exit, or inappropriate attire will be marked absent for that hour. Students should plan accordingly to meet these requirements. ACTivity Class Instructors have the independent authority to allow their entire class no more than 5 minutes of flexibility at the beginning OR at the end of class, depending on the course constraints.
Each registered student voluntarily and knowingly assumes the risks inherent to the activity in which they are participating. If a student experiences a significant event (for example, a documented extended illness, major injury, or the death of an immediate family member) and cannot complete the minimum participation and attendance requirements, the ACTivity Class Director will assist the student with class withdrawal or work with the student to complete a “Petition to Extend Allowed Absences”. Students should consult their instructors immediately if they have special needs related to their attendance. Petitions to Extend Allowed Absences are not permitted after the last instructional day prior to finals week, and are available from ACTivity Class Instructors, McGill Hall 117, or the HHP website at:

http://coehs.umt.edu/departments/hhp/activity_classes/petition/default.php

A note from the Curry Health Center or other medical provider that serves as documentation that a student missed class due to a minor illness or routine appointment will NOT be considered an “excused” absence. It is still an absence and will count towards the 6 hours of allowed absences each student receives for the semester. Students cannot petition to extend absences when missing a single ACTivity Class for any reason. Missing a single ACTivity Class will count towards the 6 hours of allowed absences each student receives for the semester.

**Accommodations:** The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). If a student thinks he/she may have a disability adversely affecting their ACTivity Class participation or attendance, the student should contact DSS in Lommasson 154. The H²PAC Program may be able to work with the student and DSS to provide an appropriate accommodation. A student needing an accommodation for another reason should immediately notify the ACTivity Class Director; hence options for an accommodation that will not substantially alter the fundamental objectives of the course can be explored.

Any student requesting ACTivity Class accommodations for a religious observance should provide the ACTivity Class Director with a written request to consider a reasonable modification for that observance by the end of the second week of the ACTivity Class. If the Department of Health and Human Performance and the student cannot agree on a reasonable accommodation, the student may file a complaint with the Office of Equal Opportunity and Affirmative Action/Title IX Coordinator at 243-5710; www.umt.edu/eo

**Safety:** Let David know if you have any preexisting injuries or if you’re pregnant. Immediately report any in-class injuries to David. Listen to your body and go at your own pace.

**Semester schedule:** **This schedule is subject to change at instructor’s discretion**

Though I cannot provide a strength plan for individual student, I am willing to accommodate and modify training plans based on student needs. I plan to provide multiple training plans with different goals. If you would like to explore beyond the course plan, please let me know and we can plan something.

Day 1: Introduction and safety

Typical course with consist of a general class warm up, followed by full bodied workout.
